

# JUST LIVING

*"Injustice anywhere is a threat to justice everywhere"*

9:30AM - 2PM

SATURDAY 4TH OCT

The Duncairn Centre for Culture  
and Arts, Duncairn Complex,  
Belfast BT14 6BP

**Just Living is a new one  
day conference to inspire,  
enthuse and motivate  
Christians passionate  
about tackling injustice  
locally and globally  
through shared learning,  
reflection, and worship.**

Integrating justice into personal & lifestyle choices: What does it mean to live ethically in a culture of greed and commodity?

We will look at and discuss how our simple everyday choices can lean towards justice and have a lasting impact on ourselves, our communities and the wider world.

What can I really do? We hear about issues of injustice worldwide: poverty, exploitation, child mortality... but can we really make a difference from here in NI?

We'll look at how we can link local and global acts of justice, and how we can take practical steps in our everyday lives to fight against injustice to start a life of just living.
